

The world needs great solutions.  
Build yours faster, with Power Apps.

# Business and IT challenges during COVID-19

**New digital business models**

**Time & resource constraints**

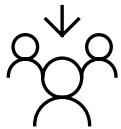

**Office closures**

**Remote working**

**Employee self-isolation**

**Adapting to employee needs**

**Limited agility**

**Emergency measures needed**

**Development delays**

**Economic recovery**

# Benefits of low-code app development

Low-code platforms enable a visual approach to building apps, empowering everyone, regardless of whether they can code or not, to quickly turn their bright ideas, into brilliant apps.

## For speed

Leverage the Common Data Service with pre-built AI models in AI Builder, and unlock value faster across your organization.

## For efficiency

Build custom apps in hours—not months—that connect to your existing data and systems to solve problems faster and drive efficiency

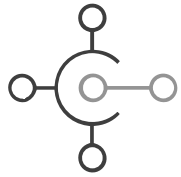

## For adapting quickly

Reduce time & cost building web and mobile applications, enabling you to get through your development backlog.

# Microsoft Power Apps unlocking innovation

Less code. More Power. Faster Innovation.

## For all organizations

Use templates, drag and drop functionality or custom code to build pixel perfect simple to mission critical web and mobile applications.

## For all makers

A full featured end to end low code application development platform built for citizen and pro developers, with IT in control.

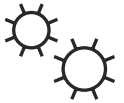

## For immediate impact

Increase agility across your organization by rapidly building low-code apps that modernize processes and solve tough challenges.

# Use Power Apps for

## Rapid Crisis Response

Leverage pre-built Crisis Response solutions that can quickly and easily be customized and deployed

## Empowering Remote Workers

Enhance collaboration and ensure that processes and solutions can be adapted to meet your remote workers needs and be their most productive selves.

## Moving Forward together (Discussed in this presentation)

Leverage existing investments, and streamline operations for efficiency and cost savings, unlocking additional value with your existing talent.

# Forward Together

# Unlock business value with Power Apps

Engage employees. Leverage investments. Improve efficiency.

## Inspire employee engagement

From first-line workers to IT developers, Power Apps gives everyone the ability to build apps.

## Leverage existing investments

Seamlessly integrate with existing Microsoft investments to streamline operations.

## Improve efficiency

Power Apps model-driven app design lowers the learning curve for citizen developers, allowing organizations to adapt quickly and efficiently.

---

**Unlock business value and increase ROI**

# Drive performance, efficiency, and security with front line workers, like Arriva

London bus operator builds custom apps for improved efficiency and collaboration

“The apps we’ve developed with Power Apps make it easier to complete our daily tasks, while having everything in one place so everybody has complete visibility..”

– Philip Gerhardt, General Manager

# Get the head start on your competitors that you need

Less code. More Power. Faster recovery.

## Built in intelligence

Outpace competitors by easily infusing your process automation with AI. Leverage predictions directly from Common Data Service across your Power Platform solutions, Dynamics 365 or Microsoft 365.

## Unrivalled integration

With limited dev capacity and time, invest it where it matters. Switch on built-in connectivity to 300+ cloud services, files, databases, web APIs or easily add your own custom connectors and on-premises sources.

## One of a kind

With out of the box common entities, a common data model, built in business logic and rules, world class security, intelligence, unrivalled integration, data models, storage, and more; you'll have the head start you need to be truly agile.

# Optimize patient care and reduce costs, like Northwell Health

## Healthcare provider improves operational outcomes with no-code apps

“We introduced one of our more tech-savvy doctors to Power Apps, **and within just a few weeks** he created the rounding app, which gives physicians, nurses, and administrators visibility into the tasks that each team needs to complete.....With business applications built on Microsoft Power Apps and Dynamics 365, **we’ve lowered the barrier for bringing innovative solutions to our employees quickly.**

– Vishwaneth Anantraman,  
Chief Innovation Architect

# Power Apps drives business transformation

Learn how businesses reduced development costs and increased overall efficiency using Power Apps

188%

ROI over three years

74%

Reduction in app development costs

3.2 hrs

Line-of-business employee productivity  
improvement per week
